

3 NEW PHOTOGRAPHY WORKSHOPS

at the Kanabec History Center

Instructor Dee Kotaska

iphone/ipad Photography (Smart phones too)

Tues. Mar. 4 (7:00 to 9:00 PM)

The camera on the iphone is extremely handy and the pictures are even good! However, this camera has many more features than many people are aware of. And the apps! There are apps to boost a camera's performance, apps to help you find sunrise and sunset and apps to create effects on the photos. This class will focus on how to use the camera to its fullest capacity and demonstrate some of the more common photography apps. While the class will focus on the iphone; info will be applicable to other smart phones as well.

BRING IPHONE OR IPAD TO CLASS FULLY CHARGED. Min. 3 students – Max. 12, Fee: \$25

UNDERSTANDING THE DIGITAL CAMERA

Tues. Mar. 11 (6:30 to 9:00 PM)

Cameras have advanced greatly since the days of simply "pointing and shooting." Even the smallest camera has a lot more capability than most photographers are aware of. In this workshop, we will discuss how a camera works, the difference between SLR and point and shoot cameras and film and digital cameras. We will spend time negotiating the menus and options of digital cameras. Since each camera has a different program, it is **ABSOLUTELY ESSENTIAL THAT EACH PERSON BRING THEIR CAMERA AND MANUAL TO THE CLASS** Open to all levels.

Min. 4 students – Max. 10, Fee: \$25

Understanding the Digital SLR and Using Manual Exposure Settings Tues. Mar. 25 (6:30 to 9:00 PM)

Today's cameras have automatic exposure settings that will give the correct exposure in most situations. However, there are situations when one wants to override the automatic settings and control the shutter speed and aperture or create special effects. We will review the features that distinguish SLR from film cameras and how to set and use those features. We will also discuss aperture and shutter speeds and other factors like ISO that affect getting a more correctly exposed image. Appropriate for SLR camera owners or point and shoot cameras that have the capability of manual exposure settings. **BRING CAMERA AND MANUAL.** Min. 3 students – Max. 7, Fee: \$25

• Must Pre-Register & Pre-Pay

Make checks payable to KHC

(Indicate which workshop(s) you are paying for.)

Mail to: PO Box 113, Mora, MN 55051
