Many Americans have never stepped foot on a farm or ranch or even talked to the people who grow and raise the food we eat, yet are increasingly passionate about understanding where their food comes from. Through the personal stories of these farmers and ranchers, viewers learn about their high-risk/high-reward jobs and passion for a way of life that has been passed down from generation to generation, yet continues to evolve.

Farmland follows the daily life of six young and diverse farmers from around the country, including a hog, corn and soybean farmer from Minnesota. Come watch this documentary to see how our food is grown on modern family farms today.

Produced by Moll's Allentown Productions, *Farmland* received notable attention during its theatrical run securing reviews in several national mediums and recognition in film festivals across the country, including Atlanta, Cleveland and Newport Beach, Calif. The film also earned a 92 percent audience rating on RottenTomatoes.com.

Farmland was made with the generous support of the [U.S. Farmers & Ranchers Alliance®](http://U.S.FarmersAndRanchersAlliance.com).

This event is sponsored by the Kanabec-Isanti County Farm Bureau.
