In 2012, ABC Theatre Company produced "Pickled or Pickles?" an original, historically-based play set in Cambridge, Minnesota during the summer of 1894 - written by Dawn Holmquist, originally from Mora. As the story goes, a mysterious shanty appeared on the north side of town and no one would admit who built it. The townswomen were sure that the men are up to no good, but did nothing until a speaker from the Woman's Christian Temperance Union stirred them to action.

 **Round Dancers inside Coin School at 12:15 pm**

Round dancing differs from free-style ballroom dancing in that each round dance has been fully choreographed ahead of time, and a "cuer" at the front of the ballroom tells the dancers, as they dance, what steps to do.
