

GENERATE BIG REVENUE WITH DYNAMIC MARKETING STRATEGIES

Is YOUR Brand protected?

May 3rd, 2016
11:30 - 1:00 PM

Establishing a strong brand is pivotal to business success. If your brand is not distinguishable from another seller in the eyes of the public, you run the risk of losing your intellectual property protection under the law.

However, people think simply registering a trademark, a copyright, or developing intellectual property is all they have to do.

This workshop will provide a summary of the laws as they pertain to trademarks/service marks and copyrights.

Participants will learn:

- The difference between these categories
- Common issues faced by businesses regarding their intellectual property
- How to register and protect your trademark
